

269. 29/1. Boma. Under trees. 2/4. Litter on Hillwood Farm. 13/2 Boma.
 6/3 Nyakaya Litter, also 10/1 common. 1/6 Mudeleyi Litter & Nyakaya Litter
Euphaesia kataigensis ♂ 11/4/71 Isombo

Int. 270 30/1 Boma. Mangos. Distinct L. 256♂ on shape of facing, land on
 underside & slender wings on upperside. Both have characteristic
 flying, even gliding movement, as Red on ripe mangoes but
 are very alert, getting away quickly when disturbed
 & flapping deliberately up & behind & out of sight behind
 mango trees, then settling on leaves with wings open. Very
 partial to mango trees.
Cynthera caenis ♂

271 2/2 Boma. Mangos.

Melipotis leda, ds

HC 272. 4/2/52 Boma. Likes mangos, but very alert & quick all the time when
 wings are open; always returns to shady places when disturbed,
 sometimes in a flash. Flutters about & settles with
 wings spread, like a moth. Not seen with wings over head.
 30/3, Litter at Thabaga village. Not uncommon. 13/7. Litter near Nyakaya's
 village. Common

273. 15/2 Boma. In open under trees. end March, common.
Acraea esebria *esebria* 1/6, Mudeleyi Litter, v. common
 3/5/74 Kikumbura & Chambi, Mutanga, common. Also Mutoko

274. 24/2. Boma. Among mangoes. 15/2. See 191. *Euptera hirundo*
lutea ♂
